

# April Program

## Mystery Finishing Technique

### Instructions:

This project is intended to be made from your stash, so rummage around and pick out a good fabric scrap and pretty floss. There are no rules, just use whatever fabric and colors of floss you like. 28 count or 32 count linen or even weave would work as well as 14 count AIDA. Stitch the design using 2 strands of floss.

Bring the following items to the April meeting:

- Your completed stitched piece.

- Embroidery floss in the color you used for the borders.

- Tapestry needle (same size you used for the stitching).

- About 8 inches of coordinating ribbon or twisted cord.

- Your usual stitching supplies and fabric scissors.

Be prepared to learn a fun finishing technique, and see what combinations we all come up with!
